Come and join us for an update on an important topic – MRI safety.

Our star speaker Dr Frank Shellock will be presenting an MR safety based webinar followed by a live Q&A session. But that’s not all, we also have some excellent speakers from the world of MR including Denise Newsom on signing off implants, the BAMRR Safety contact Cath Mills on new implants, as well as talks about SAR, MR safety expert development, neuro simulators and gadolinium retention. All this for only £50 and we even provide lunch!
